

In an event of **siren at Bar-Ilan University**

(Bar-Ilan's location is at "East Ramat Gan")

Once you hear the siren, enter the protected space within 90 seconds while following these instructions:

Indoors

- Go into the protected spaces or shelters at the building you are at and make sure you close the doors and windows.
- In a building with no protected spaces, head to the stairwell or interior rooms.

Outdoors

- Head for a nearby building or shelter.
- In an open area, lie on the ground and cover your head with your arms.

In a vehicle

- Stop and park at the side of the road, step outside the vehicle and enter a nearby building or shelter.
- If there is no building nearby, step outside of the vehicle, lie on the ground and cover your head with your arms.
- If you can't exit the vehicle just park it at the side of the road.

Important

- You must stay protected for 10 minutes so you may be protected from a salvo of multiple rockets and debris.
- If you see a rocket on the ground, please avoid it and report its location to the Security Dept. (03-5317777)

If there are any other instructions, they will be given using the campus announcement loudspeakers.
